NOVEMBER 2026

Twin intermeshing servo flap controlled rotors provide strong performance in hot and high environments. This eliminates the need for a tail rotor drive train and hydraulic systems, which equals less maintenance and increased reliability.

▶▶ KAMAN HELICOPTER TIMELINE: ▶▶ DECEMBER 12, 1945 AND BEYOND ...

December 1945:
With \$2,000 and his invention of the servo flap controlled rotor, Charles H. Kaman founds the company.

July 1949:
US Navy & Coast Guard buy K-225s for \$25,000 each.

December 1951:
A modified K-225 becomes the world's first gas turbine powered helicopter.

March 1954:
A modified HTK-1 becomes the world's first twin turbine powered helicopter.

July 1957:
Another modified HTK-1 becomes the world's first remotely piloted helicopter.

October 1961:
The H-43 Husky sets an altitude record of 32,840 ft. and flew more rescue missions than all other aircraft during the Korean and Vietnam Wars.

January 1964:
First flight of Kaman's experimental Convertiplane. The craft achieves air speeds of over 200 mph.

December 1987:
SH-2F Seasprite rescues crewman from a tanker in the Persian Gulf. It logged more than one million hours of service for the US Navy.

January 1991:
Magic Lantern, a new laser-based mine countermeasures system, is deployed in the Persian Gulf during Operation Desert Storm.

February 1993
The SH-2G, with new avionics, mission electronics and GE-T700 engines, enters US Navy service.

August 1993:
The K-MAX "Aerial Truck," the world's first helicopter specifically designed for repetitive lift operations, receives FAA certification in record time.

October 1997:
Kaman Aerospace makes its first SH-2G international delivery to the Arab Republic of Egypt, equipped with dipping sonar.

August 2001:
The New Zealand Defence Force accepts the Kaman SH-2G(NZ). The New Zealand Super Seasprite is the first to be equipped with air-to-surface missiles for anti-surface warfare capability.

August 2003:
Kaman delivers SH-2G aircraft to the Polish Navy in October 2002 and completes training in August 2003.

February 2009:
Kaman successfully completes all testing of its ITAS software for its eleven SH-2G(I) aircraft.

January 2010:
Team K-MAX successfully demonstrates unmanned helicopter cargo resupply to USMC.
